

# LLDPE OFF GRADE FILM

## MATERIAL DATA SHEET

**MATERIAL GRADE:** RAPFCO LLDPE 311

**DESCRIPTION:** RAPFCO LLDPE 311 resin is a butene linear low density Polyethylene suitable for general-purpose blown films medium gauge

**APPLICATION:** RAPFCO LLDPE 311 resin is recommended for shipping sacks, ice bags, frozen food bags, stretch wrap film, produce bags, liners, carrier bags, garbage bags

**PACKING:** JUMBO BAGS

Physical	Unit	Min-Value	Max-Value
Melt Index	g/10min	1.50	2.50
Density	g/cm <sup>3</sup>	0.910	0.925
Moisture	Shape	Size	Color
< 0.1 %	Granules	3 - 6 mm	Natural

Materials classified as non-prime are considered off-grade or reprocessed, indicating that their granule size, humidity, and color do not meet the standards set for prime-grade materials.
